

Change the Theme

See the glossary definition of [Theme](#)

1. Go to your [Dashboard](#)
 - See [Explore the Dashboard](#) for help
2. Click **Appearance**
 - Find **Appearance** in the left menu
 - *The "Themes" page will appear*
3. Navigate through the available themes by scrolling through the page
 - The first theme listed and labeled "Active" is your current theme
 - See [Specific Blog, Website, and Portfolio Themes](#) for theme suggestions
4. Roll the mouse over a theme that interests you
 - *Options to see a Live Preview and "Activate" the theme will appear*
5. Click **Live Preview**
 - *A live preview of your site with the chosen theme applied will appear*
6. You can change the options in the sidebar to modify the theme's taglines, headers, colors, images, etc.
7. Click **Save & Activate** in order to choose a theme
 - *The Themes page will appear and a message will appear confirming the activation*
